

Northside Water Users Association, Inc.
Application for New User

Name:	
Mailing Address:	
Service Address:	
Phone #:	
E-Mail:	
Cell Phone Carrier:	
Distance to Northside Water Users Assoc. main line	
Number of living units on property	Do you have an ADU or duplex?

Homeowner is responsible for the following:

1. Submit a map (hand drawn is OK) indicating the location of the proposed home and its proximity to the Northside Water Users Association, Inc.'s main water line.
2. Submit this form and the required Capitalization Fee for a single family dwelling, \$7,875.00
3. Meet with the District operator to identify the location of the proposed water meter.
4. Pay the meter installation fee based on the location of the water main to your property
5. Landowner is responsible to install the water service pipe from the downstream side of the meter to the home.
6. The applicant is also required to pay actual cost (if required) of permitting, asphalt repair, or other costs associated, but not part of, the physical installation of the meter and service line.

Responsibility of Northside Water Users Association, Inc.

1. Connect service to water main.
2. Install water meter.
3. Notify landowner when meter is ready for connection.
